Room 603

§~~~~~§§~~~~~§

Biomedical engineering is a multi-disciplinary profession that seeks to apply scientific knowledge to solve problems in medicine and biology. In this talk, Stanley will tell us his views on the BME profession in HK, and will offer his insights on how current students can prepare better to boost their readiness for a BME career.

ABOUT THE SPEAKER

Mr. Stanley SIU (MedE Class of 2007) has multi-faceted career experience that spanned both research and the public healthcare sector. He has worked on several biomedical engineering projects that have directly improved the quality of healthcare services. In his spare time, Stanley actively participates in various professional organizations and engages in activities that aim to inspire the younger generation.

Organizer & Host: Dr. Alfred Yu (alfred.yu@hku.hk)

All are WELCOME!
